Page 2 of 15

1 Executive Summary

- 1.1 Following the establishment of STC working group, for the STC Amendment Proposal CA039, the STC Committee recognised that working groups within the Evaluation Phase as laid out in Section B of the STC was not very clear in its aim and usage.
- 1.2 The STC already enables the STC Committee to determine that additional information is required in order to assess whether a Proposed Amendment or any Alternative Amendment better facilitates the Applicable STC Objectives and refer the Amendments to the Evaluations Phase where a working group can be established. National Grid has considered how working groups operate within other electricity codes and proposes a number of changes to Section B of the STC to provide some additional clarity and governance in relation to working groups.
- 1.3 As Proposer, National Grid supports the implementation of CA043 as it better facilitates the Applicable STC objectives, as appropriate working group arrangements are likely to lead to a more efficient administration of the STC in respect of the development and implementation of Amendment Proposals.
- 1.4 At the STC Committee meeting on 26th June 2011, the Committee agreed that CA043 should proceed directly to the Assessment and Report Phase.

STC Committee Recommendation

- 1.5 The STC Committee provisionally recommends that STC Amendment Proposal CA043 be approved for implementation.
