

Transmission Access Standing Group (TASG)

Agenda

Brandon Hall Hotel, Brandon Nr. Coventry

**10.30am
10 January 2003**

1. Introductions/apologies for absence
2. **Objective:**
 - To discuss Ofgem's proposals in order to aid CUSC Parties to be in a position to respond in an informed way to the first stage of Ofgem's initial proposals for the 2003 System operator incentive scheme due by Jan 14. First stage includes proposed obligation on NGC to use all reasonable endeavours to bring in a system of contractually firm tradable entry and exit rights by October 2003.
3. **Addition to Terms of Reference**
 - To consider the transmission access arrangements described in Ofgem's December SO incentives initial proposals document and provide advice to the CUSC Panel on Jan 24 on what would be involved in developing such arrangements and a view on the likely timescales it could be achieved in.
4. **Understanding the proposals set out in Ofgem's initial proposals document?**
 - Ofgem response to questions raised at last TASG meeting
 - Comparison with latest work of TASG and CAP043
5. **What would need to be developed to implement such a model?**
 - Discussion of what this strawman would require to be implemented
 - (NGC to provide some initial thoughts on what would need to change before the meeting)
 - How the vision can be translated into a workable model
 - Work-streams necessary to deliver the final product
 - Who will undertake the tasks
 - How will it be tested and against what criteria
 - Derivation of potential timescale
 - Interaction with other initiatives/modifications
6. **Views of the Standing Group on way forward**
7. **AOB**
