CAP174: Background

Defect

- ◆ What does this Amendment Proposal address?
 - Application form within Exhibit B to the CUSC does not require Applicants to specify exact location of proposed Offshore Connection Site
 - Lack of detail when completing application form may lead to a delay in processing the application

Proposal

- ◆ CAP174 seeks to amend Exhibit B to require an Applicant to provide the longitude and latitude of the proposed Offshore Connection Site

CAP174: Relevant Objectives

- ◆ **How does it better meet the Relevant Objectives?**
 - ◆ Explicitly requesting the exact location of a proposed Offshore Connection Site should avoid unnecessary delay in the application process for a specific class of Applicant, thereby facilitating competition

Recommendation

- ◆ The drafting associated with CAP174 has been prepared and circulated with the Amendment Proposal
- ◆ We recommend that CAP174 proceeds straight to consultation by the Company
