

## STC Amendment Proposal Form

<b>Details of Proposer:</b> Organisation's Name:	The National Grid Company plc
<b>Capacity in which the Amendment is being proposed</b> (i.e. STC Party or other Party as designated by the Authority pursuant to STC section B7.2.2.1 (b))	STC Party
<b>Details of Proposer's Representative:</b> Name: Organisation: Telephone Number: Email Address:	Lilian Macleod National Grid Company 01926 656368 <a href="mailto:Lilian.Macleod@ngtuk.com">Lilian.Macleod@ngtuk.com</a>
<b>Details of Proposer's Alternate:</b> Name: Organisation: Telephone Number: Email Address:	Mark Duffield National Grid Company 01926 654971 <a href="mailto:Mark.Duffield@ngtuk.com">Mark.Duffield@ngtuk.com</a>

STC Ref No	Title of Amendment Proposal	Description of Proposed Amendment	Description of Issue or Defect that Proposed Amendment seeks to Address	Impact on the STC	Impact on Other Frameworks	Impact on Core Industry Documents	Impact on Computer Systems and Processes used by STC Parties	Details of any Related mods to Other Industry Codes	Justification for Proposed Amendment with Reference to the Applicable STC Objectives
STCAP 001	Section J, Paragraph 1.1 – Correction of Referencing Error	Section J, Paragraph 1.1 refers to 'Section I' and requires correction to read 'Section J'	Correction of referencing error at the beginning of Section J, Paragraph 1.1	Correction of referencing error	None	None	None	None	The Terms of the Transmission Licence (TL) require National Grid to establish and operate procedures for the modification of the STC, including the modification procedures themselves so as to better facilitate achievement of the Applicable STC Objectives. Correction of the referencing error in Section J, Paragraph 1.1 would aid the promotion of good industry practise and efficiency in the implementation and administration of the arrangements described in the STC.
STCAP 002	Section I, Paragraph 9.1 – Correction of sub-paragraphs numbering.	Sub-paragraph numbering for Section I, paragraph 9.1 starts at 9.1.2 instead of 9.1.1	Correction of sub-paragraph numbering of Section I, Paragraph 9.1 and amend subsequent paragraph numbering and cross referencing accordingly throughout paragraph 9.	Correction of inaccurate sub-paragraph numbering	None	None	None	None	The Terms of the Transmission Licence (TL) require National Grid to establish and operate procedures for the modification of the STC, including the modification procedures themselves so as to better facilitate achievement of the Applicable STC Objectives. Correction of the inaccurate sub-paragraphing numbering in Section I, Paragraph 9.1 would aid the promotion of good industry practise and efficiency in the implementation and administration of the arrangements described in the STC.

STC Ref No	Title of Amendment Proposal	Description of Proposed Amendment	Description of Issue or Defect that Proposed Amendment seeks to Address	Impact on the STC	Impact on Other Frameworks	Impact on Core Industry Documents	Impact on Computer Systems and Processes used by STC Parties	Details of any Related mods to Other Industry Codes	Justification for Proposed Amendment with Reference to the Applicable STC Objectives
STCAP 003	Introduction of Version Control	Introduction of version control throughout STC documentation i.e. Sections, and Schedules.	Currently there is no version control of the STC sections and schedules, the introduction of which would assist in the electronic servicing of the STC.	Introduction of version control - please refer to Appendix A.	None	None	None	None	The Terms of the Transmission Licence (TL) require National Grid to establish and operate procedures for the modification of the STC, including the modification procedures themselves so as to better facilitate achievement of the Applicable STC Objectives. The introduction of version control throughout the STC would aid the promotion of good industry practise and efficiency in the implementation and administration of the arrangements described in the STC.
STCAP 004	Section I, Paragraph 1.2, Correction of Typing Error	Section I, Paragraph 1.2 finishes with an end bracket “)” instead of full stop”.	The authority decision letter for SLC C18 introduced within Section 1 sub-paragraph 1.2 however the legal text finishes the sentence with an end bracket instead of a full stop.	The ending of Section I, sub-paragraph 1.2 will have the correct grammatical ending.	None	None	None	None	The Terms of the Transmission Licence (TL) require National Grid to establish and operate procedures for the modification of the STC, including the modification procedures themselves so as to better facilitate achievement of the Applicable STC Objectives. The correct grammatical ending for Section I, Paragraph 1.2 would aid the promotion of good industry practise and efficiency in the implementation and administration of the arrangements described in the STC.

STC Ref No	Title of Amendment Proposal	Description of Proposed Amendment	Description of Issue or Defect that Proposed Amendment seeks to Address	Impact on the STC	Impact on Other Frameworks	Impact on Core Industry Documents	Impact on Computer Systems and Processes used by STC Parties	Details of any Related mods to Other Industry Codes	Justification for Proposed Amendment with Reference to the Applicable STC Objectives
STCAP 005	Section J – New Definitions	There are currently no definitions listed for: 'Local Switching Procedure', 'Local Joint Restoration Plan' and 'De-Synchronised Island Procedure'	The authority decision letter for OC7 and OC9 introduced the following terminology into the STC: Local Switching Procedure, Local Joint Restoration Plan and De-Synchronised Island Procedure but did not provide the relevant definition in Section J.	Insertion of three new definitions - please refer to Appendix B.	None	None	None	None	The Terms of the Transmission Licence (TL) require National Grid to establish and operate procedures for the modification of the STC, including the modification procedures themselves so as to better facilitate achievement of the Applicable STC Objectives. The insertion of three new definitions into Section J would aid the promotion of good industry practise and efficiency in the implementation and administration of the arrangements described in the STC.
STCAP 006	Section G, paragraph 18.1 – removal of obsolete text.	Removal of obsolete text – 'to the effect that the law governing the place in which such immovable property' – at the end of Section G, paragraph 18.1	The authority decision letter for STC Housekeeping amendment deleted words from Section G, paragraph 18.1 but did not remove 'to the effect that the law governing the place in which such immovable property'. Resulting in the current paragraph becoming ineffectual.	Deletion of ineffectual text.	None	None	None	None	The Terms of the Transmission Licence (TL) require National Grid to establish and operate procedures for the modification of the STC, including the modification procedures themselves so as to better facilitate achievement of the Applicable STC Objectives. The removal of the ineffectual text in Section G, Paragraph 18.1 would aid the promotion of good industry practise and efficiency in the implementation and administration of the arrangements described in the STC.

STC Ref No	Title of Amendment Proposal	Description of Proposed Amendment	Description of Issue or Defect that Proposed Amendment seeks to Address	Impact on the STC	Impact on Other Frameworks	Impact on Core Industry Documents	Impact on Computer Systems and Processes used by STC Parties	Details of any Related mods to Other Industry Codes	Justification for Proposed Amendment with Reference to the Applicable STC Objectives
STCAP 007	Section I, Paragraph 13.1 – Correction of sub-paragraph numbering.	Sub-paragraph numbering for Section I, paragraph 13.1 starts at 13.1.2 instead of 13.1.	Correction of sub-paragraph numbering of Section I, Paragraph 13.1	Correction of inaccurate sub-paragraph numbering	None	None	None	None	The Terms of the Transmission Licence (TL) require National Grid to establish and operate procedures for the modification of the STC, including the modification procedures themselves so as to better facilitate achievement of the Applicable STC Objectives. Correction of the inaccurate sub-paragraph numbering in Section I, Paragraph 13.1 would aid the promotion of good industry practise and efficiency in the implementation and administration of the arrangements described in the STC.
STCAP 008	Schedule 3 – Amendment to paragraph 2.1.3 (a)	Reference to 'Construction Agreement' should be amended to 'TO Construction Agreement'	Amending incorrect terminology within Schedule 3, paragraph 2.1.3 (a).	Schedule 3, paragraph 2.1.3 (a) amended to reflect correct terminology	None	None	None	None	The Terms of the Transmission Licence (TL) require National Grid to establish and operate procedures for the modification of the STC, including the modification procedures themselves so as to better facilitate achievement of the Applicable STC Objectives. The introduction of the correct terminology in Schedule 3, Paragraph 2.1.3 (a) would aid the promotion of good industry practise and efficiency in the implementation and administration of the arrangements described in the STC.

STC Ref No	Title of Amendment Proposal	Description of Proposed Amendment	Description of Issue or Defect that Proposed Amendment seeks to Address	Impact on the STC	Impact on Other Frameworks	Impact on Core Industry Documents	Impact on Computer Systems and Processes used by STC Parties	Details of any Related mods to Other Industry Codes	Justification for Proposed Amendment with Reference to the Applicable STC Objectives
STCAP 009	Schedule 3, – Amendment to Paragraph 2.3.2 – Incorrect cross referencing	Cross-reference should be amended to refer to sub-paragraphs 2.4.7(a) – (g), not 2.4.6 (a) – (g).	Reference to sub-paragraphs 2.4.6 (a) – (g) will be corrected to read 2.4.7 (a) to (g).	Schedule 3, paragraph 2.3.2 amendment to reference the correct sub-paragraphs.	None	None	None	None	The Terms of the Transmission Licence (TL) require National Grid to establish and operate procedures for the modification of the STC, including the modification procedures themselves so as to better facilitate achievement of the Applicable STC Objectives. Correction of the referencing error in Schedule 3, Paragraph 2.3.2 would aid the promotion of good industry practise and efficiency in the implementation and administration of the arrangements described in the STC.
STCAP 010	Schedule 3 – Amendment to paragraph 2.5.1	Reference to 'Construction Agreement' should be amended to 'TO Construction Agreement'	Amending incorrect terminology within Schedule 3, paragraph 2.5.1.	Schedule 3, paragraph 2.5.1 amended to reflect correct terminology	None	None	None	None	The Terms of the Transmission Licence (TL) require National Grid to establish and operate procedures for the modification of the STC, including the modification procedures themselves so as to better facilitate achievement of the Applicable STC Objectives. The introduction of the correct terminology in Schedule 3, Paragraph 2.5.1 would aid the promotion of good industry practise and efficiency in the implementation and administration of the arrangements described in the STC.

STC Ref No	Title of Amendment Proposal	Description of Proposed Amendment	Description of Issue or Defect that Proposed Amendment seeks to Address	Impact on the STC	Impact on Other Frameworks	Impact on Core Industry Documents	Impact on Computer Systems and Processes used by STC Parties	Details of any Related mods to Other Industry Codes	Justification for Proposed Amendment with Reference to the Applicable STC Objectives
STCAP 011	STC – Table of Contents	Insert Heading G20 and associated wording in the Table of Contents Document	Recent authority direction in relation to Schedule 3 inserted paragraph G20 into the STC but did not add the corresponding heading into the Table of Contents Document.	Table of Contents Document will be consistent with the text in the same section.	None	None	None	None	The Terms of the Transmission Licence (TL) require National Grid to establish and operate procedures for the modification of the STC, including the modification procedures themselves so as to better facilitate achievement of the Applicable STC Objectives. The updating of the Table of Contents document would aid the promotion of good industry practise and efficiency in the implementation and administration of the arrangements described in the STC.
STCAP 012	STC – Table of Contents	Insert Heading I14 and associated wording in the Table of Contents Document	Recent authority direction in relation to EELPS inserted paragraph I14 into the STC but did not add the corresponding heading into the Table of Contents Document.	Table of Contents Document will be consistent with the text in the same section.	None	None	None	None	The Terms of the Transmission Licence (TL) require National Grid to establish and operate procedures for the modification of the STC, including the modification procedures themselves so as to better facilitate achievement of the Applicable STC Objectives. The updating of the Table of Contents document would aid the promotion of good industry practise and efficiency in the implementation and administration of the arrangements described in the STC.

## Appendix A

### STCAP03 – Version Control

It is proposed to introduce version control on all STC Sections and Schedules, illustrated in red text below:

Sample using Section A, Paragraph 4:

#### **4 PRECEDENCE**

- 4.1 In the event of any inconsistency between the provisions of a Code Procedure and any other parts of the Code that are not Code Procedures then such other parts of the Code shall prevail.
- 4.2 In the event of any inconsistency between the provisions of the Code and the provisions of any other document established or adopted under and pursuant to the Code then the provisions of the Code shall prevail.
- 4.3 In the event of any inconsistency between the provisions of one Code Procedure and another, the Relevant Parties to such Code Procedures as are inconsistent shall agree which provision(s) shall take precedence pending amendment of the Code Procedure(s) as relevant under Section B paragraph 7.3, and such Relevant Parties shall promptly take such steps in accordance with Section B paragraph 7.3 to remove such inconsistency.
- 4.4 A Party may refer a failure to agree pursuant to paragraph 4.3 to the Authority as a Dispute pursuant to Section H, paragraph 4.1.

Version 2

A-2

1<sup>st</sup> April 2005

The version control of the relevant page(s) will be updated when there has been an approved change to the STC. For example if a revision is made on 21<sup>st</sup> May 2005 then the footer on the pages that have been amended to read “Rev 1 – 21<sup>st</sup> May 2005” in place of “1<sup>st</sup> April 2005”. This will assist with the identification of changes to the STC and with the electronic servicing of the STC.

#### **Electronic Servicing of STC**

The Industry Codes department will electronically service the STC i.e. electronic update packs will be issued at the time of each change to the STC. In order to take advantage of this service, users will need to print off the BETTA Go-Live version of the STC, which is available on the [Industry Information Microsite](#). Then upon receipt of the electronic service pack, users should print and insert the replacement pages contained within the service pack into this hard copy of the STC. These service packs will be emailed to users where requested and will also be made available on the [Industry Information Microsite](#).

## Appendix B

### STCAP05 – New Definitions (Section J)

**TERM**

**“Local Switching Procedure”**

**“Local Joint Restoration Plan”**

**“De-Synchronised Island Procedure”**

**MEANING**

As defined in the Grid Code as of the Code Effective Date

As defined in the Grid Code as of the Code Effective Date

As defined in the Grid Code as of the Code Effective Date
