Amendment Description		Current status and progress		
<p>CA031 - has been raised as a consequence of CUSC Amendment Proposal CAP167 which addresses the problem by developing a Relevant Embedded Small Power Station (RESPS) Methodology which will form a basis for calculating RESPS Thresholds for each Grid Supply Point. NGET shall prepare a draft RESPS Methodology in consultation with owners and operators of Distribution Systems and relevant Transmission Licensees. Following this initial consultation NGET shall publish the RESPS Methodology on the NGET website for a period of 28 days for parties to provide comments to NGET.</p>		<p>The amendment proposal has been circulated to the STC Committee for comments. Comments to feedback via email and reported back at the January 2009 meeting. Evaluation phase to be completed by SPT and SHETL Draft Amendment Report to be approved at the February STC meeting. The STC Committee approved for CA031 to proceed to Company Consultation for a period of 10 days. The final report was submitted to the Authority on the 18th March 2009 we are now awaiting a decision. The intention was to submit a new amendment Proposal, CA034 to replace CA031 with revised legal text, but as the outcome of the DECC/Ofgem Transmission Access Review has not yet been finalised, CA034 Amendment Proposal has been withdrawn at the February 2010 STC Committee meeting with a view to re-submitting if required at a later date.</p>

Amendment Description		Current status and progress		
CA035 Offshore Transmission Compliance & Testing. The proposal intends to add a new section K as result of Grid Code Consultation A10 Compliance. The minimum technical, design and operational criteria and performance criteria that Offshore Transmission Owners (OFTO) must satisfy.		CA035 was submitted to April STC committee meeting without the legal text. The members agreed to consider whether the proposal should proceed to assessment and report phase or Evaluation stage. The legal text was forwarded prior to the May STC Committee meeting, some comments had been received. The group agreed for the proposal to proceed directly to assessment and Report Phase providing that the necessary changes were made and agreed. A revised version of the legal text was circulated prior to the June STC Committee for approval. On the 15th August National Grid withdrew CA035 with the intension to resubmit the proposal at later date.

Amendment Description		Current status and progress		
<p>CA037 Inclusion of list of parties to the STC. The proposed amendment seeks to put in place a new schedule, 'Schedule A', to include a list of party details. The introduction of Offshore Transmission Licence holders being made parties to the STC, will increase the number of Transmission Owners therefore it would seem sensible to have a list of all Onshore and Offshore Transmission Owners.</p>		<p>CA037 was submitted to May STC Committee meeting for consideration. The STC Committee welcomed proposal and agreed for it to proceed to Assessment & Report Phase. A draft Amendment Report is to be circulated STC Committee for comment. The Proposed Amendment Report circulated was approved by the June STC Committee and then circulated for a 5 day Industry Consultation on the 23rd June 2010. One response was received in support of the proposal and incorporated in the draft Amendment Report submitted to the July STC Committee meeting. At the meeting it was noted more information was required behind the choice of the STC objectives that are better met by the proposal Revised wording is to be circulated to the STC Committee for approval. CA037 was submitted to the Authority on the 12th August 2010 for a decision. On the 13th September the Authority approved CA037 for implementation</p>		

CA038		Amendment to the governance timescales		
Proposer	National Grid	Submitted	Submitted	Normal
		18/05/10	Priority	
Amendment Description		Current status and progress		
<p>CA038 Transitional election arrangements for Offshore Transmission owners. The amendment proposes to amend Paragraph 6 of Section B (Governance) to create a 'Transitional Period' in which Offshore Transmission Owners (OFTOs) are able to be represented on the STC Committee for the periods which Annex B1 of Section B does not allow.</p>		<p>CA038 was submitted to May STC committee meeting without the legal text for consideration. Consideration is currently being given as to whether proposal should proceed through the normal governance arrangements or go through the urgent amendment proposal route. The Authority has confirmed the Amendment Proposal should proceed though the normal governance process. The Draft Proposed Amendment Report was circulated to the Committee members for comment on the 22nd June 2010. At the July STC Committee meeting the proposed Amendment incorporating comments from the committee was approved for a 10 day industry consultation period, issued on the 27th July. Four responses to the consultation had been received in support of CA038. The draft Amendment Report was considered by the August STC Committee. The Committee requested minor changes to be made before submitting to the Authority. The Amendment report will now be submitted to the September STC Committee for approval.</p>

Amendment Description		Current status and progress		
<p>CA039 Outage Planning Development. The amendment proposal seeks to put in place a clause within Section C of the STC to ensure the TO's provide outage planning information for the following financial year and the subsequent year. This will allow NGET to coordinate outage plans for all Transmission Owners further ahead to help reduce constraint costs</p>		<p>CA039 was submitted to the July STC Committee meeting for discussion. The Committee agreed for CA039 to go to Evaluation Stage to develop and approve the legal text. The second Working Group meeting took place on the 20th September. Updates will be made at the September Committee meeting.</p>
