## QUARTERLY CUSTOMER SATISFACTION SURVEY RESULTS

Ofgem, the industry regulator, requires all gas distribution networks to undertake quarterly postal customer satisfaction surveys in relation to planned works, emergency response and repair and connections services. The survey must be undertaken by a third party. [COMPANY NAME] use [THIRD PARTY NAME] for this purpose. Customers are asked to rate their satisfaction on a scale of 1-10, where a score of 1 indicates that the customer is very dissatisfied with the level of service received and a score of 10 indicates that the customer is very satisfied.

The red lines indicate the confidence interval associated with the survey results. There is a 95 per cent probability that the actual level of customer satisfaction lies somewhere in the margin indicated by the confidence interval.
