Dear Tom,

Consultation Document for D/11: System to Generator Operational Intertripping Schemes

ScottishPower welcomes the opportunity to provide comment on the above consultation. This response is submitted on behalf of ScottishPower's Energy Wholesale Business, which includes ScottishPower Generation Ltd and ScottishPower Energy Management Ltd.

ScottishPower are supportive of the proposed changes to the Grid Code. Amending the Intertrip provisions to account for the use of TO circuit breakers ensures that all signatories are able to be compensated in the event of an intertrip being fired. Essentially a housekeeping exercise, this change is necessary following the OFTO arrangements go-live.

I trust that you will find these comments helpful. Nonetheless, should you require further clarification of any of the above, please do not hesitate to contact me.

Yours sincerely,

Gary Henderson

For and on behalf of: ScottishPower's Energy Wholesale Business which includes ScottishPower Generation Ltd and ScottishPower Energy Management Ltd.
