

**ANNEX 1**  
**STC AMENDMENT REGISTER – AS AT 1<sup>st</sup> December 2011**

---

All documents referred to in the Amendment Register are available on the National Grid STC website.

<b>CA039</b>		<b>OUTAGE PLANNING DEVELOPMENT</b>		
<b>Proposer</b>	National Grid	<b>Submitted</b>	Submitted	Normal
		27/07/10	Priority	

**Amendment Description**

CA039 Outage Planning Development. The amendment proposal seeks to put in place a clause within Section C of the STC to ensure the TO's provide outage planning information for the following financial year and the subsequent year. This will allow NGET to coordinate outage plans for all Transmission Owners further ahead to help reduce constraint costs

**Current status and progress**

CA039 was submitted to the July STC Committee meeting for discussion. The Committee agreed for CA039 to go to Evaluation Stage to develop and approve the legal text. Evaluation Phase concluded on 21<sup>st</sup> September 2010. At the September STC Committee meeting the members approved CA039 to proceed to Assessment and Report Phase. At the October 2010 STC Committee meeting, CA039 was approved to go to industry consultation on 27<sup>th</sup> October 2010, for 10 working days. One response to the consultation was received. A draft Amendment Report was circulated to the STC Committee and at February's STC Committee meeting Ofgem requested that more information was included in the draft Amendment Report regarding materiality and discussion regarding potential licence changes. At March's STC Committee meeting, in order to allow Ofgem further time to consider the latest drafting in respect of materiality, a 1 month extension to the end of April 2011 to the Assessment and Report Phase was granted by the Authority. On 27<sup>th</sup> April, the STC Committee requested a further month's extension in order to allow Ofgem's comments regarding materiality to be addressed and was granted at the STC Committee on 4<sup>th</sup> May 2011. The Amendment Report was considered further at the 1<sup>st</sup> June STC Committee meeting. Following this consideration, it was agreed that further work was required on the report and therefore, a month's extension was requested and granted from the Authority. At June's STC Committee meeting, the Committee approved the Amendment Report for submission to the Authority. The Amendment Report was submitted for determination to the Authority on 13<sup>th</sup> July 2011. Following a couple of minor comments from Ofgem, a revised Amendment Report was submitted for determination to the Authority on 16<sup>th</sup> August 2011. On 17<sup>th</sup> August 2011, the Authority approved CA039 and it was implemented on 24<sup>th</sup> August 2011.

<b>CA042</b>		<b>OFFSHORE TRANSMISSION SYSTEM COMPLIANCE &amp; TESTING</b>		
<b>Proposer</b>	<b>National Grid</b>	<b>Submitted</b>	<b>Submitted</b>	<b>Normal</b>
		<b>28/09/10</b>	<b>Priority</b>	
<b>Amendment Description</b>		<b>Current status and progress</b>		
<p>The amendment proposes to amend the STC such that the Offshore Transmission Owner (OFTO) must cooperate and demonstrate to National Grid, compliance of the technical design and operation of its transmission system in accordance with Section K of the STC.</p>		<p>CA042 was submitted to the September STC Committee meeting for discussion. The Committee agreed for CA042 to proceed to Assessment &amp; Report Phase. At the December STC Committee meeting, CA042 was approved to go to industry consultation for 20 working days. Consultation closed on 2<sup>nd</sup> February and 4 responses were received. At March's STC Committee meeting, in order to allow further work in respect of development of the STCP 19-5 process, a 1 month extension to the Assessment and Report Phase to end of April 2011 was granted by the Authority. At the 4<sup>th</sup> May STC Committee meeting, a further months extension was granted by the Authority in order to allow the continuing discussions regarding the associated STCP 19-5 process to be concluded. The Amendment Report was considered further at the 1<sup>st</sup> June STC Committee meeting. Following this consideration, it was agreed that further work was required on the report and therefore, a month's extension was requested and granted from the Authority. At June's STC Committee meeting, the Committee approved the Amendment Report for submission to the Authority, subject to slight amendment to the wording in Section 6.7. The Amendment Report was submitted for determination to the Authority on 21<sup>st</sup> July 2011. On 16<sup>th</sup> August 2011, the Authority approved CA042 and it was implemented on 23<sup>rd</sup> August 2011.</p>

<b>CA043</b>		<b>CLARIFICATION OF WORKGROUPS WITHIN THE EVALUATION PHASE</b>		
<b>Proposer</b>	<b>National Grid</b>	<b>Submitted</b>	<b>Submitted</b>	<b>Normal</b>
		<b>01/06/11</b>	<b>Priority</b>	
<b>Amendment Description</b>		<b>Current status and progress</b>		
<p>The Evaluation Phase laid out in Section B of the STC is not very clear in its aim and usage. As a result the Evaluation Phase has been reviewed and this Amendment Proposal seeks to provide some additional clarity and governance in relation to working groups.</p>		<p>CA043 was submitted to the 1 June 2011 STC Committee meeting for discussion. At 28<sup>th</sup> June 2011 STC Committee meeting, the Committee agreed for the Proposal to be progressed to Assessment and Report Phase. At the September 2011 STC Committee meeting, CA043 was approved to go to industry consultation for 10 working days on 16<sup>th</sup> September 2010. Consultation closed on 30<sup>th</sup> September and 1 response was received. At October's STC Committee meeting, the Committee approved the Amendment Report for submission to the Authority. <b>The Amendment Report was submitted for determination to the Authority on 4<sup>th</sup> November 2011.</b></p>

<b>CA044</b>		<b>CLARIFICATION OF PARTY &amp; PARTY REPRESENTATION RESPONSIBILITIES</b>		
<b>Proposer</b>	<b>National Grid</b>	<b>Submitted</b>	<b>Submitted</b>	<b>Normal</b>
		<b>28/06/11</b>	<b>Priority</b>	
<b>Amendment Description</b>		<b>Current status and progress</b>		
<p>Offshore Transmission Owners (OFTOs) may appoint two persons via an election to the STC Committee as Party Representatives. It is proposed that the elected Party Representatives shall represent the OFTOs collectively and, as appropriate, inform the Committee of the views of all the OFTOs in relation to the functions of the Committee and in particular the amendment of the Code.</p> <p>National Grid has reviewed references to Party/Parties/Party Representatives within Section B of the STC to ensure that the correct defined term is being utilised since the accession of the OFTOs to the STC. For clarity it is proposed to update a number of references to Party/Parties/Party Representatives.</p>		<p>CA044 was submitted to 28<sup>th</sup> June 2011 STC Committee meeting for discussion. The Proposal was formally submitted to 26<sup>th</sup> July 2011 STC Committee meeting where the STC Committee agreed for the Proposal to progress to Assessment and Report Phase. <b>At the STC Committee meeting on 22<sup>nd</sup> November 2011, the Committee approved CA044 to go to industry consultation for 5 working days. CA044 was issued for industry consultation on 30<sup>th</sup> November 2011 and closes on 7<sup>th</sup> December 2011</b></p>

<b>CA045</b>		<b>ARRANGEMENT OF USER COMMITMENTS</b>		
<b>Proposer</b>	<b>National Grid</b>	<b>Submitted</b>	<b>Submitted</b>	<b>Normal</b>
		<b>25/10/11</b>	<b>Priority</b>	

**Amendment Description**

This amendment is being raised a consequential change to CUSC Modification Proposal CMP192 – Arrangements for Enduring Generation User Commitment, which seeks to add a new section to the CUSC to replace the existing methodology used to determine a generator’s financial liabilities in relation to the provision of new or additional capacity. Changing the User Commitment regime will result in the need to share more information with the TOs, this includes the requirement for the TOs to provide capital expenditure data to NGET every year, for the current year plus a three year forecast. There will also be a requirement for the TOs to provide project information on a 6 monthly basis

**Current status and progress**

CA045 was submitted to the 25th October 2011 STC Committee meeting.

**CA046**

**INCLUSION OF GENERATOR BUILD OPTIONS WITHIN THE STC**

<b>Proposer</b>	<b>National Grid</b>	<b>Submitted</b>	<b>Submitted</b>	<b>Normal</b>
		<b>22/11/11</b>	<b>Priority</b>	

**Amendment Description**

In July 2010, Ofgem outlined their intention to consult on providing the option for generator developers to take responsibility for all aspects of design, procurement and construction of transmission infrastructure which would then be transferred to an appointed Offshore Transmission Owner (OFTO) through a competitive tender process. This 'Generator build' option was in addition to the 'OFTO build' approach which had already been proposed by Ofgem. Following Ofgem consultations in August 2010 and November 2010, it was agreed to provide OFTO and Generator build options. Following the implementation of these Generator Led (OFTO and Generator build) changes to the Grid Code and CUSC, the STC now needs to be changed to reflect the possibility that an offshore generator may have responsibility for the design and build of an offshore transmission network.

**Current status and progress**

**CA046 was submitted to the 22<sup>nd</sup> November 2011 STC Committee meeting.**
