

# CAP159 – Arrangements for CUSC Mid – Term Elections

---

*CUSC Panel Vote*  
*25<sup>th</sup> January 2008*

# Defect

---

- ◆ At present there is no facility to hold a mid-term election should a panel vacancy arise when there are no elected Alternate Panel Members
- ◆ This increases the risk of a CUSC Panel Meeting not meeting quorum.

## Proposed Solution

---

- ◆ It is proposed that this issue is addressed by allowing for mid-term CUSC Panel Elections when a full Panel Member vacancy arises and there are no elected Alternate Panel Members
- ◆ The election process would be similar to the “normal” election process and would have a published timetable at the start of the election process.

# Applicable Objectives and Recommendation

---

## Objectives

- ◆ **CAP159** will better facilitate CUSC Applicable Objective (a) *(The efficient discharge by the licensee of the obligations imposed upon it under the Act and by the Transmission Licence)*

by ensuring that the CUSC Panel has adequate membership to ensure quorum.
