

## CAP148 Working Group

Meeting Name	CAP148 Working Group
Meeting No.	5
Date of Meeting	4 <sup>th</sup> July 2007
Time	10:00 – 15:00
Venue	National Grid, Northampton

---

This note outlines the key action points from the fourth meeting of the CAP148 Working Group.

### **1. Actions**

1. MD to provide comments on Section 3 – Proposed Amendment of the draft report
2. MT to include the co-fired diagram from the meeting in the next draft report describing the move from TEC to DTEC post implementation
3. MT to revise section 4.3.2 of the draft report on partially eligible plant
4. MT to add a new section into the report to highlight the interactions with other live amendments currently progressing through the CUSC process
5. MT to revise constraint management chapter to reflect the meeting discussions
6. ALL to consider any possible simpler and better solutions than market price for associated losses
7. ALL to provide comments on the connection queue management
8. DG to provide justification for intermittent generation (including a definition for intermittent generation)
9. MT to include a table of possible Working Group Alternatives in the next draft report
10. ALL to indicate support for any of the alternatives and provide any further Working Group Alternatives to MT ASAP
11. PH to provide paragraphs on the consequential impact of CAP148 on other Codes and Industry documents
12. DA to provide a paragraph on the potential impact on the gas market/code due to the implementation of CAP148
13. MT to include the legal text and consequential impacts on the agenda for the next meeting
14. PH to provide materiality data for the number of projects that may be affected if CAP148 is implemented and the current likely lead time for local works

### **2. Date of Next Meeting**

15. The next Working Group meeting will be held on 16<sup>th</sup> July 2007 at the National Grid offices in Northampton. The meeting will commence at 10.00am.
