31 October 2008

Dear Colleague,

Workshop Details for National Grid Gas System Operator Incentives from April 2009

National Grid is leading the development of SO Incentives and, further to the consultations conducted through the autumn, will be publishing its Initial Proposals for Gas SO Incentives in the first half of November 2008.

To support this Initial Proposals consultation National Grid is holding a half day workshop to present its proposals and consultation options. The workshop will also provide an opportunity for interested parties to discuss them prior to submitting their formal responses to the consultation document. This letter provides further information on this workshop.

Closer to the event National Grid will publish an agenda on the SO Incentives area of the National Grid website. Those parties that have registered for the event (see below) will be sent an e-mail (and link) to confirm when this material is available.

Following the workshops, the presentations from the day will also be published on the same part of the National Grid website.

National Grid will be arranging a similar event for Electricity SO Incentives, detail of this event will be circulated shortly.

Confirmation of dates, times and venues
