

## CUSC Definition Changes to incorporate Charging Methodology Statements

Below is a list of proposed changes to CUSC definitions to fully reflect incorporation of charging statements into CUSC.

"Connection Boundary"	shall be the boundary defined by Paragraph <del>[insert reference to paragraph 1.6 of connection charging methodology]</del> ;1.6 of the Statement of the Connection Charging Methodology;
"Consents"	in relation to a particular <b>User</b> , as defined in its <b>Construction Agreement</b> ; In relation to any Works:- a) all such planning and other statutory consents; and b) all wayleaves, easements, rights over or interests in land or any other consent; or for commencement and carrying on of any activity proposed to be undertaken at or from such Works when completed permission of any kind as shall be necessary for the construction of the Works;
"Designated sum"	As defined in Standard Condition C13 of the Transmission Licence.
"Offer"	an offer for connection to and/or use of the <b>National Electricity Transmission System</b> made by <b>The Company</b> in relation to the <b>CUSC</b> ; In the context of the <b>Charging Methodologies</b> it shall mean as defined in the BSC;
"Transmission Licences"	the licences granted to <b>The Company</b> , SP Transmission Limited and Scottish Hydro Electric Transmission Limited under the Act; <del>[Note: There is potential for confusion over the use of the singular to refer to The Company's licence and the plural to refer to all three licences and it may be helpful to distinguish between the two terms more clearly]</del>
"Transmission Licensees Assets"	The Plant and Apparatus owned by Transmission Licensees necessary to connect the User's Equipment to the GB Transmission System at any particular Connection Site in respect of which <b>The Company</b> charges Connection Charges (if any) as listed or identified in [Appendix A] to the Bilateral Agreement relating to each such Connection Site

BSC definition of ‘Distribution System’ for reference;

**Distribution System**": means:

(i) all or part of a distribution system in Great Britain operated by a Licensed Distribution System Operator; and

(ii) all or part of any other distribution system in Great Britain for which the condition is satisfied that all entry/exit points are subject to registration in SMRS pursuant to the provisions of the MRA; provided that:

(a) such distribution system or part thereof is connected to the Transmission System at Grid Supply Points which fall within only one Group of GSPs, and

(b) where part only of a distribution system is comprised in a Distribution System, each other part thereof must be comprised in one or more other Distribution Systems;

where:

(1) 'distribution system' has the meaning given to that term in section 4(4) of the Act, following amendment of the Act by section 28 of the Utilities Act 2000;

(2) 'entry/exit point' means a point at which electricity may flow on to or off such distribution system other than from or to the Transmission System or another such system or a distribution system referred to in paragraph (i) above;

Except that prior to the BETTA Effective Date every use of the words Great Britain in such meaning shall be deemed to be a reference to England and Wales;
