Dear Industry Member

Offshore Connection Process Workshop

National Grid is hosting a workshop to explore how the connection process may work for offshore developers and other interested parties (equipment manufacturers, prospective offshore transmission owners etc). This workshop has been scheduled to follow the OFGEM/BERR Offshore Communication Session at the end of January 2008. Please note that if the date of the Communication Session changes, the date of this workshop may also be altered.

Date: Friday 1st February 2008
Time: 0930 – 1500
Location: St Catherines Lodge, Wokingham

The workshop will cover:

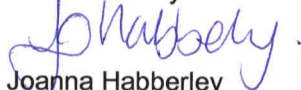

- Overview of the basic offshore connection application process and its interactions with Tender Process
- Scenarios (to include onshore/offshore interactions)
- Key Issues for stakeholders

Numbers will be limited so if you wish to attend please email jo.habberley@uk.ngrid.com with the following information to book a place.

NAME:
Company:
Category: OFTO/ developer / manufacturer / Other (please specify):
Contact telephone number:
Contact email address:
Car park place required?
Concerns / issues would like to see discussed at the workshop:

Further details will be sent at a later date.

Yours faithfully

Joanna Habberley
