**Amendment Description**

CA039 Outage Planning Development. The amendment proposal seeks to put in place a clause within Section C of the STC to ensure the TO's provide outage planning information for the following financial year and the subsequent year. This will allow NGET to coordinate outage plans for all Transmission Owners further ahead to help reduce constraint costs

Current status and progress

CA039 was submitted to the July STC Committee meeting for discussion. The Committee agreed for CA039 to go to Evaluation Stage to develop and approve the legal text. Evaluation Phase concluded on 21<sup>st</sup> September 2010. At the September STC Committee meeting the members approved CA039 to proceed to Assessment and Report Phase. At the October 2010 STC Committee meeting, CA039 was approved to go to industry consultation on 27<sup>th</sup> October 2010, for 10 working days. One response to the consultation was received. **A draft Amendment Report was circulated to the STC Committee and at February's STC Committee meeting Ofgem requested that more information was included in the draft Amendment Report regarding materiality and discussion regarding potential licence changes. At March's STC Committee meeting, in order to allow Ofgem further time to consider the latest drafting in respect of materiality, a 1 month extension to the end of April 2011 to the Assessment and Report Phase was granted by the Authority. On 27<sup>th</sup> April, the STC Committee requested a further month's extension in order to allow Ofgem's comments regarding materiality to be addressed and was granted at the STC Committee on 4<sup>th</sup> May 2011.**

**ANNEX 1**  
**STC AMENDMENT REGISTER – AS AT 4<sup>th</sup> May 2011**

|   |  |  |                  |        |
|---|--|--|------------------|--------|
| <b>CA041</b>  | <b>INCLUSION OF TRANSMISSION OWNER REINFORCEMENT INSTRUCTIONS IN TRANSMISSION OWNER CONSTRUCTION OFFER AND DEFINITION AMENDMENTS</b> |  |                  |        |
| <b>Proposer</b>   | National Grid  | <b>Submitted</b>   | <b>Submitted</b> | Normal |
|   |  | 28/09/10   | <b>Priority</b>  |        |
| <b>Amendment Description</b>  |  | <b>Current status and progress</b>   |                  |        |
| <p>It is proposed to amend Schedule Eight – ‘TO Construction Offer’ of the STC such that a Transmission Owner submits to NGET the latest Transmission Owner Reinforcement Instruction (TORI) or confirmation that the current TORI remains unchanged with the Transmission Owner Construction Offer (TOCO).</p> <p>Submission of the TORI will assist NGET to incorporate the correct information into the relevant User Connection Offer in accordance with the CUSC.</p> <p>It is also proposed to amend Section J ‘Interpretation and Definitions’ within the STC such that a TORI is defined.</p> |  | <p>CA041 was submitted to September STC Committee for discussion. The Committee agreed to feedback comments prior to the next meeting. Following January’s STC Committee meeting it was determined that CA041 required the OFTO view before it moved to a Proposed Amendment Report. <b>At February’s STC meeting, it was agreed that the Proposed Amendment Report would be sent out for industry consultation on 28<sup>th</sup> February, for 10 working days. Due to further work needing to be undertaken with respect to the definition of a ‘TORI’ and the potential impact this may have on the original Amendment Proposal CA041, at the STC Committee meeting on 4<sup>th</sup> May 2011, NGET withdrew CA041.</b></p> |                  |        |

| <b>CA042</b>  | <b>OFFSHORE TRANSMISSION SYSTEM COMPLIANCE &amp; TESTING</b> |   |                  |        |
| <b>Proposer</b>   | National Grid  | <b>Submitted</b>  | <b>Submitted</b> | Normal |
|   |  | 28/09/10  | <b>Priority</b>  |        |
| <b>Amendment Description</b>  |  | <b>Current status and progress</b>  |                  |        |
| <p>The amendment proposes to amend the STC such that the Offshore Transmission Owner (OFTO) must cooperate and demonstrate to National Grid, compliance of the technical design and operation of its transmission system in accordance with Section K of the STC.</p> |  | <p>CA042 was submitted to the September STC Committee meeting for discussion. The Committee agreed for CA042 to proceed to Assessment &amp; Report Phase. At the December STC Committee meeting, CA042 was approved to go to industry consultation for 20 working days. Consultation closed on 2<sup>nd</sup> February and 4 responses were received. <b>At March’s STC Committee meeting, in order to allow further work in respect of development of the STCP 19-5 process, a 1 month extension to the Assessment and Report Phase to end of April 2011 was granted by the Authority. At the STC Committee meeting a further months extension was granted by the Authority in order to allow the continuing discussions regarding the associated STCP 19-5 process to be concluded.</b></p> |                  |        |
