

Gas Insulated Switchgear

Working Group

GIS – as currently defined

- ◆ CUSC 2.12 defines the electrical ownership boundary for GIS as the gas zone separators on the busbar side of the busbar disconnector
- ◆ Historically there was a gas zone separator at the busbar clamp
- ◆ Now there is no separator and the ownership and electrical boundary is the Purple dashed line

Current issues – Brainstorming

- ◆ Operational and Safety Management
- ◆ Construction
- ◆ Commercial
