

## EVERY VOICE MATTERS IN THE FIGHT AGAINST CLIMATE CHANGE

But it's our young people's futures that will be most affected by the decisions and actions we all make today.

The Voices for a Green Future competition is an opportunity for school pupils across the UK to have their hopes and ambitions for a greener, more sustainable future heard at the United Nations COP26 climate conference this November.

Four lucky winners will be invited to create a 2-5 minute speech, receiving a VIP video shoot with a professional video team to turn their speech ideas into a film that will be premiered at COP26 in front of world leaders.

The winners will also secure a **£5,000 grant for their school** to put towards initiatives focused on climate change and science, technology, engineering and mathematics and £150 worth of National Book Tokens or science related toys for themselves.

## COMPETITION

# VOICES FOR A GREEN FUTURE

National Grid is focused on finding ways to deliver a cleaner, greener energy system to help reach net zero and tackle climate change.

We are asking primary and secondary school children in years 3-10, aged between 7-15, to submit up to a 200 word entry to the question:

**"IF YOU WERE IN CHARGE OF THE COUNTRY, WHAT WOULD YOU DO TO HELP LOOK AFTER THE PLANET?"**

Responses will be judged based on their originality, creativity, inspiration and passion by a panel of VIP judges.

**Entries open Monday 21 June 2021 until the 17 August 2021**

For more information and to discover a wealth of resources to help you discuss the competition in the classroom visit:
