

# Coleshill to Bedworth

Footpath closure for work in your area  
December 2019 to Summer 2020

Overhead line refurbishment work between Hams Hall substation near Coleshill and Coventry substation near Bedworth. The pylon route passes through Hams Hall National Distribution Park in Lea Marston, Shustoke, Fillongley, Wood End, Bedworth West, Goodyers End and Exhall.

## What are we doing?

- Work across a 20km (12.5 mile) route from substation to substations.
- Engineers working overhead
- Your electricity supply will not be affected by the work
- Full refurbishment of 60 pylons including the replacement of the wires, insulators and fittings and painting

## Keeping you informed

If you have any questions about the essential maintenance work taking place, please call our Community Relations team on **0800 073 1047** or email [nationalgridcb@jbp.co.uk](mailto:nationalgridcb@jbp.co.uk) The Community Relations team is available seven days a week between 7am-7pm.

## Why are we doing it?

To keep the network in first class working order and meet future electricity demands

## Footpath closures

This footpath is closed for the duration of our work to allow us to access the pylon sites for netting, scaffolding and wire pulling. This is in the interest of safety for users while our works take place.

The majority of the work is being done when the power supply is switched off between January to March 2020. The project is expected to be complete by summer 2020.
