

Visual Impact Provision Landscape Enhancement Initiative

Notes and guidance on completing the Landscape Enhancement Initiative application form

The following notes provide suggestions and guidance on completing the full Landscape Enhancement Initiative application form.

Your partners

This section is about any organisations you will be working with to deliver your project. List who they are and in what way they will be involved. They might include other local community groups who have a shared interest in your proposed work but you should not include contractors who would be paid for work. You could also include details of organisations you have consulted or discussed the project with in the preparation and planning of your project.

Your project

These questions should be fairly self-explanatory but you can contact us if there is anything you don't understand.

For the details of the criteria your project should address please see our webpage titled 'Our selection criteria' on the Landscape Enhancement Initiative website.

Keep your answers brief and to the point.

You can use bullet points if you wish.

Try to avoid jargon.

Budget

Make sure you list all the resources you need to successfully deliver your project; this should include physical items as well as human resources. You should also clearly indicate which of the items you are contributing and which you are requesting funding for.

Monitoring

How will you know if your project is successful? You need to explain how you intend to evaluate the impact your project has. These should relate to the outcomes you have listed earlier.

Publicity

We want future designated areas to be able to benefit and learn from your project. As part of project monitoring and reporting you will be required to keep a photographic record of progress on your project which will be uploaded to a central project website. In addition to this, how will you share details about your project and what you have learnt to others both locally and with interested colleagues?

Attachments

If the combined size of your attachments is more than 15MB you can e-mail submit additional attachments separately via nationalgrid@thetrustpartnership.com

Finally

Ask somebody else to read through your application to make sure your project is understandable.
