

Legend

Proposed Development

- Proposed Tunnel Alignment
- Proposed Tunnel Alignment (inc Limit of Deviation)
- Above Ground Permanent Works
- Site Boundary
- Study Area

Existing Infrastructure

- Pylon
- Overhead Line
- Underground Cable

Main Surface Water Features

- Sinks
- Issues
- Spread
- Collect
- Spring
- Main river
- Lake
- Surface water drains
- WFD river waterbody catchment boundary
- Coastal erosion line
- Tidal water
- Estimated Harlech a Maentwrog IDB
- Estimated Glaslyn a Phensyflog IDB
- Estimated Llanfrothen IDB

Note: The 'Main Rivers' shown on this figure fall under the remit of Natural Resources Wales (NRW). All other watercourses are classified as 'Ordinary Watercourses' and will fall under the remit of either the Lead Local Flood Authority (LLFA) or Internal Drainage Board (IDB). The IDB areas were digitised from pdf files found at: <https://naturalresources.wales/guidance-and-advice/environmental-topics/consultations/our-own-consultations-closed/internal-drainage-districts-boundary-reviewconsultation/?lang=en>
