

## The Great Grid Upgrade

Norwich to Tilbury

**nationalgrid**

# Targeted consultation

Location reference: **Norfolk 1**

12 noon 30 January 2025 to 11:59 pm 3 March 2025

**Norwich to Tilbury is a proposal for a new electricity transmission connection. It will play an important part in connecting low carbon, more affordable electricity from where it is generated to where it is needed.**

From 10 April to 26 July 2024, we held a statutory consultation, inviting local communities, land owners and stakeholders to share their views on our proposals.

Since then, we have been carefully reviewing all the feedback we received as well as considering the findings of ongoing assessment work.

This has identified some places where there is potential to make a change to the proposals we published at our statutory consultation. These potential changes do not

materially change the effects or fundamentally change the project as a whole.

We intend to submit our application for development consent in summer 2025. Before we make any decisions, we want to give nearby residents and local communities the opportunity to provide feedback on proposed changes near to them.

We are consulting on the proposed changes described below and overleaf between 30 January and 3 March 2025 and we welcome your feedback.

### What we are proposing to change in your area and why

We are proposing changes to the location of the temporary construction laydown areas on the land around Norwich Main substation and related haul roads. This includes moving the temporary construction laydown areas (shown diagonally hatched in orange on the maps overleaf) to land west of pylons RG3 and RG5. You can see the locations of the temporary construction laydown areas and haul road routes presented at our statutory consultation in summer 2024 as well as our proposed changes on the maps overleaf.

These proposed changes would allow our proposals to avoid conflicting with the construction of other proposed developments in the area.

We are also proposing other changes to the temporary works to accommodate the positioning of soil storage and associated landscaping works at Norwich Main substation, as well as other minor amendments to the order limits.

### What are the environmental implications of the proposed changes?

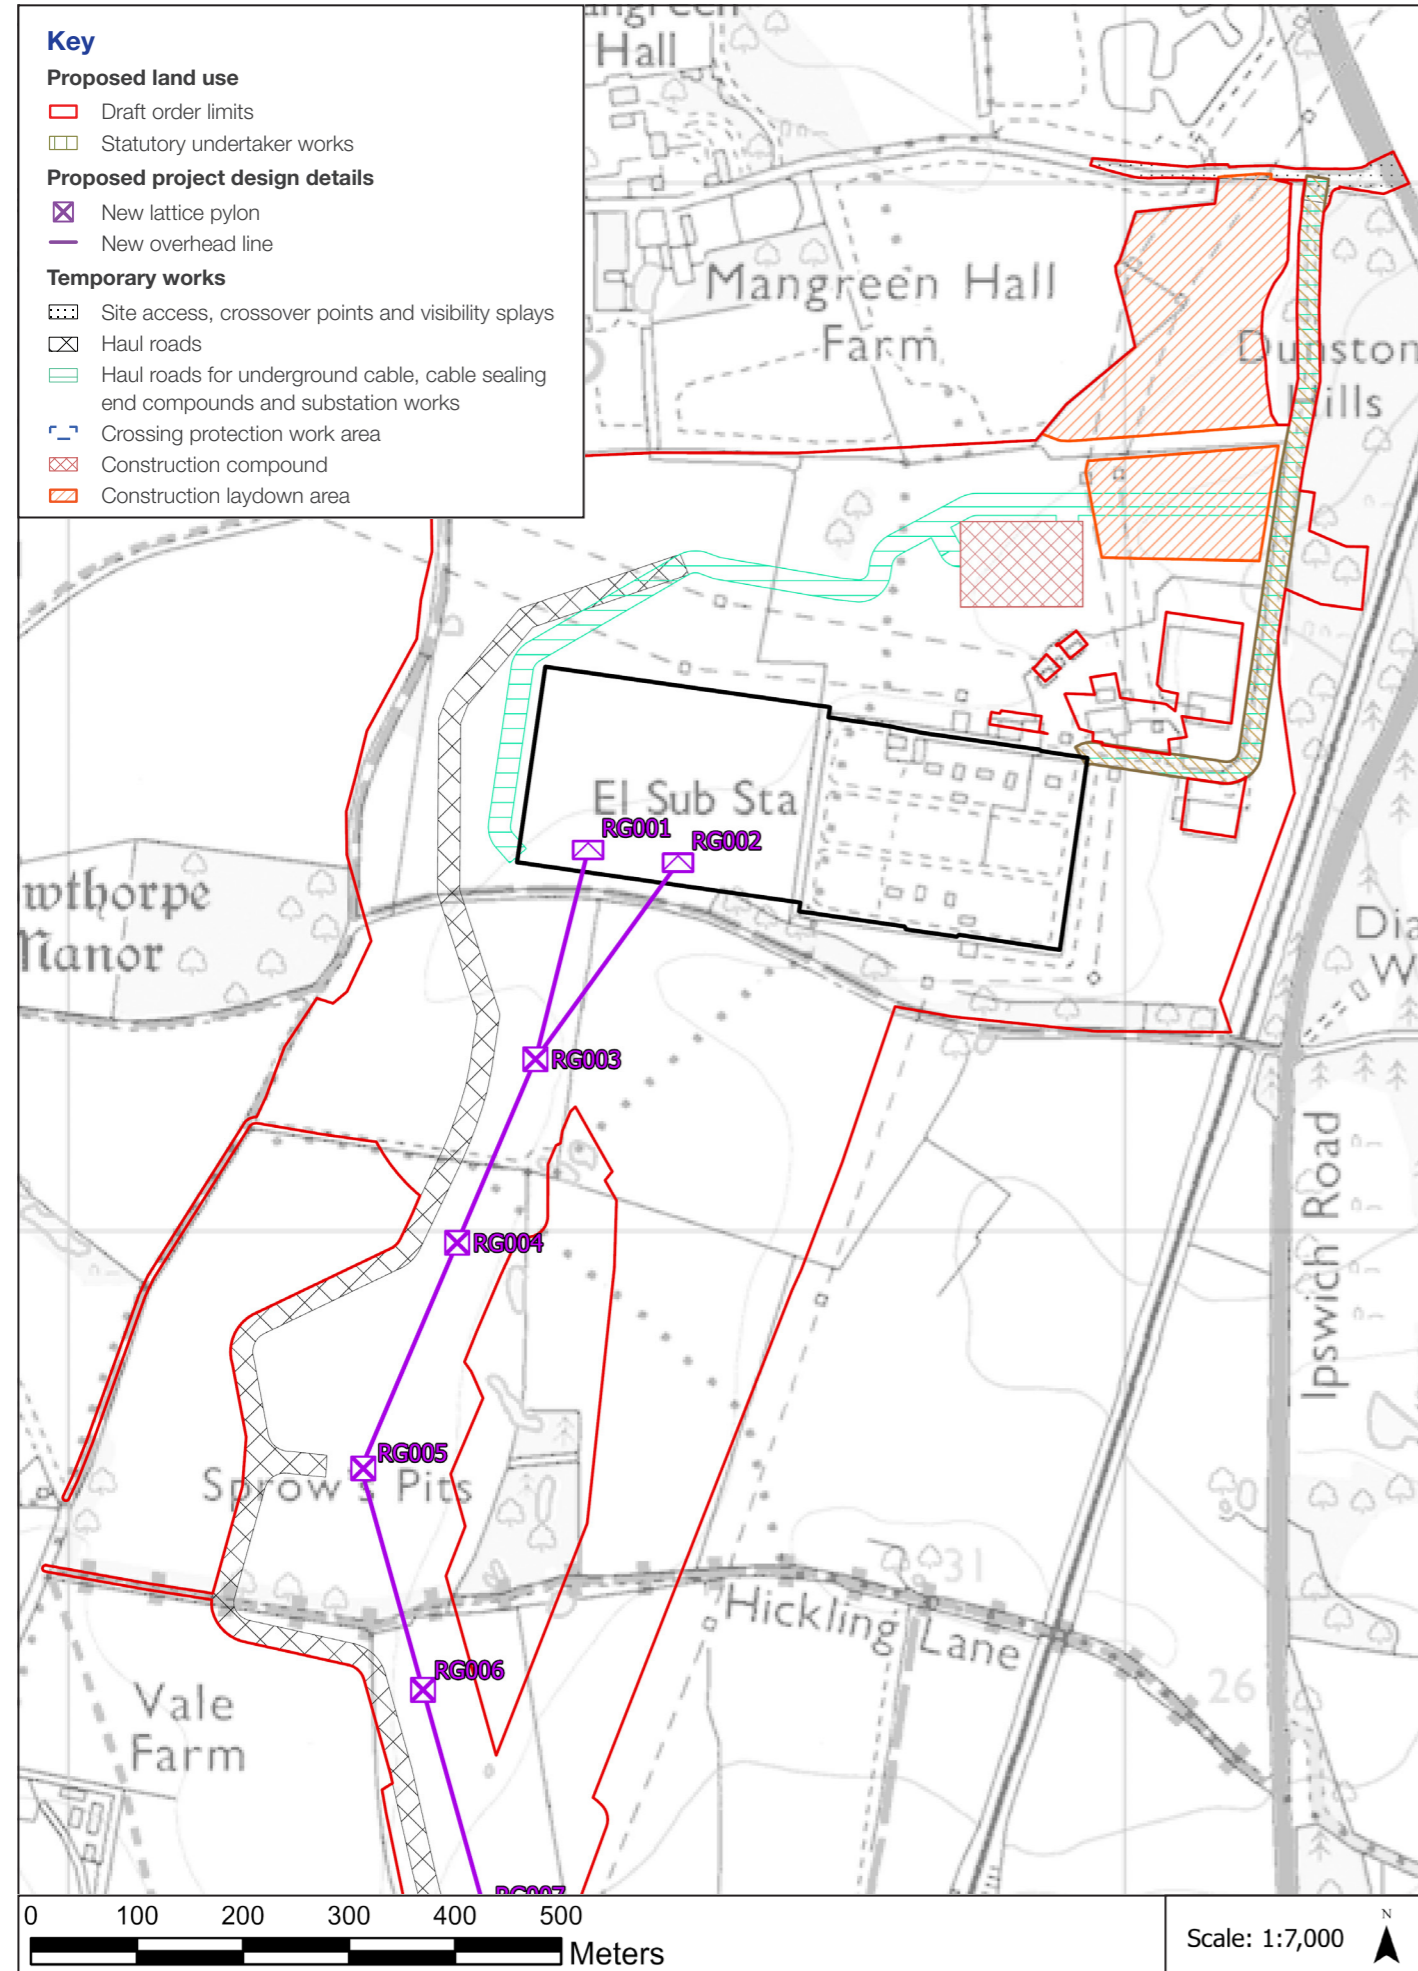

The proposed changes would not materially change the conclusions that were reported within the Preliminary Environmental Information Report (PEIR) published as part of our summer 2024 consultation.

For more information on environmental implications, please see the Environmental Implications of Change document (EIC) with location reference **Norfolk 1**, where information on the environmental implications of the proposed change is provided and can be read alongside the information contained here.

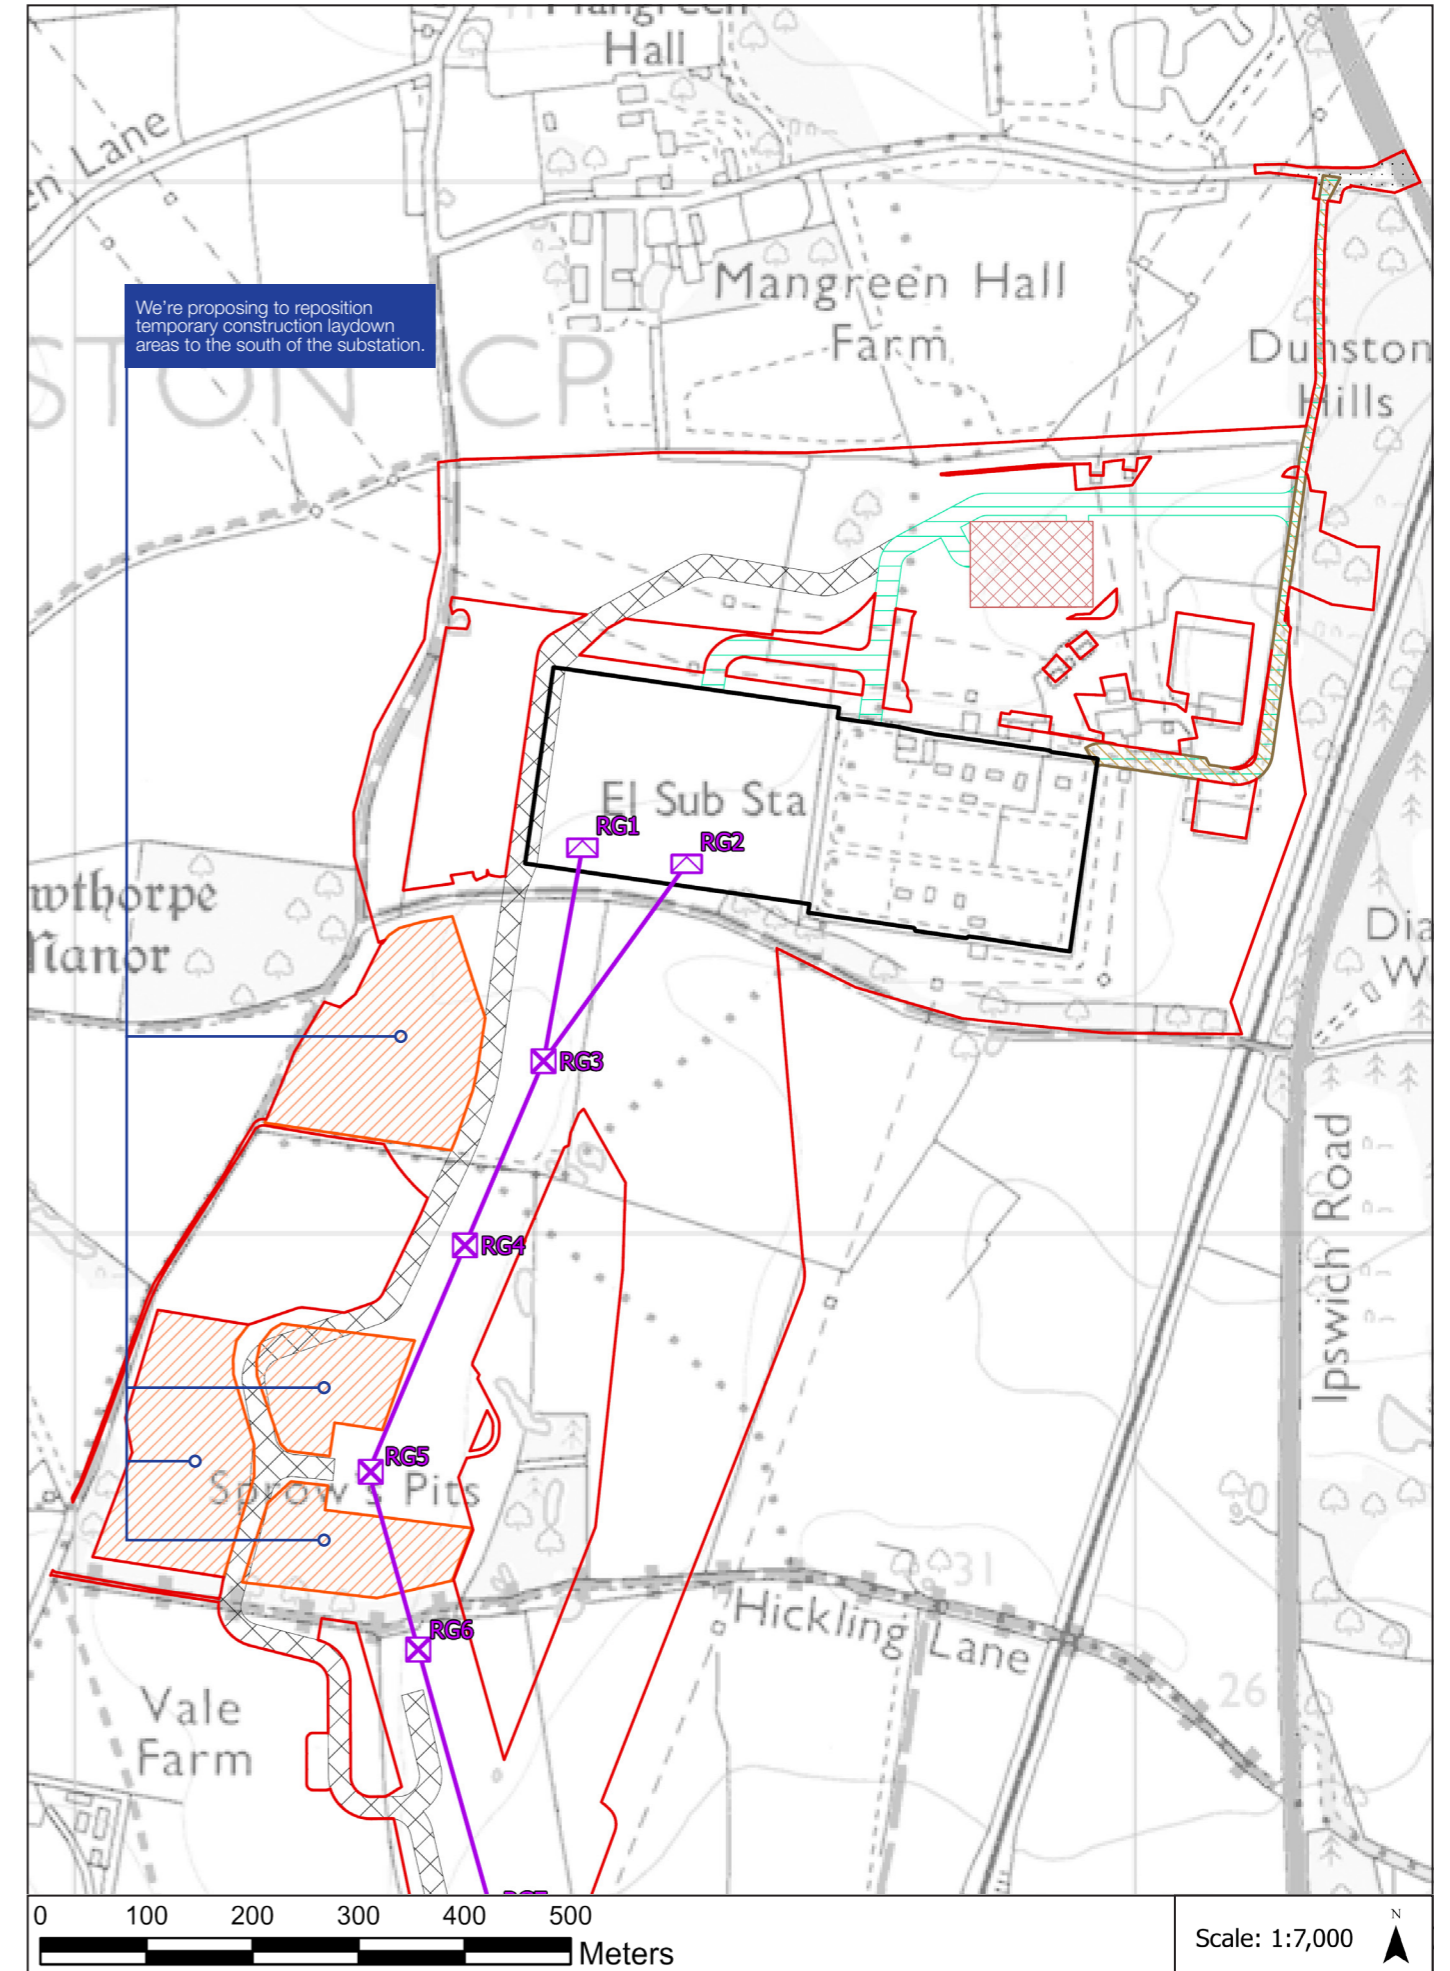

If you received this leaflet in the post, the EIC will be enclosed. Alternatively, you can view the EIC on our website at [nationalgrid.com/norwich-to-tilbury](https://nationalgrid.com/norwich-to-tilbury).

If, following careful consideration of any feedback we receive, we decide to make this change, baseline information, environmental surveys and assessments associated with this change will be provided in the Environmental Statement (ES) that will form part of our application for a Development Consent Order (DCO).

## Alignment presented at the 2024 statutory consultation

## Area of proposed change January 2025

# Have your say

Our targeted consultation on the proposed changes at this location runs from **12 noon 30 January 2025 to 11:59 pm 3 March 2025**.

If you have any comments regarding this proposed change, you can provide feedback by using the location reference **Norfolk 1**.

## Feedback can be provided by:

Completing an online feedback questionnaire:  
[nationalgrid.com/norwich-to-tilbury](https://nationalgrid.com/norwich-to-tilbury)

Filling out a paper feedback questionnaire and sending it to the Freepost address below – if you haven't been sent one, please call us on: **0800 915 2497** and we will post one to you

Sending us an email:  
[contact@n-t.nationalgrid.com](mailto:contact@n-t.nationalgrid.com)

Writing to us (no stamp required) at:  
**FREEPOST N TO T**

## Attend a webinar

To give people an opportunity to ask the project team questions, we are holding three webinars via Microsoft Teams.

The webinars which will cover this change will be held on **11 February 2025 at 6:00 pm** and **12 February 2025 at 12 noon**.

You can sign up for a webinar on our website:  
[nationalgrid.com/norwich-to-tilbury](https://nationalgrid.com/norwich-to-tilbury)

- Norfolk – 11 February 2025 at 6:00 pm
- Norfolk and Suffolk – 12 February 2025 at 12 noon
- Suffolk – 13 February 2025 at 6:00 pm

You can also call us on: **0800 915 2497** if you have any questions.

## Visit our website

[nationalgrid.com/norwich-to-tilbury](https://nationalgrid.com/norwich-to-tilbury) where you will find maps, consultation materials, and our online feedback questionnaire.

The deadline for feedback is **11:59 pm on 3 March 2025**.
